Home: Al-Mazon Street, 134 (Oman)

ABOUT ME

I'm developing apps using Flutter for Android and iOS, attention to the details of my project and invest my experience to achieve the best results.

WORK EXPERIENCE

Flutter Developer

Reef Company [29/08/2024 – 20/11/2024]

City: Cairo | **Country:** Egypt

- Developed the Reef Operations app with Flutter and Firebase, integrated with Zoho One ERP.
- Managed customer visits, invoicing, returns, and inventory.
- Created a user-friendly interface for scheduling, invoicing, and tracking data efficiently.
- Boosted operational efficiency and customer experience.

Flutter Developer

Upwork Freelance Developer (Compeast Company) [30/09/2023 – 30/04/2024]

- Successfully developed a Flutter-based mobile application, D-Card, designed as a contact management system to streamline and organize user contacts efficiently.
- Delivered the project on time, ensuring all client specifications and deadlines were met.
- Designed and implemented a user-friendly and visually appealing interface, focusing on an excellent user experience.
- Maintained seamless communication with the client throughout the project, promptly addressing feedback and making necessary improvements.

Flutter Developer

Developers Plus Company [16/07/2023 – 15/09/2023]

City: Gaza | **Country:** Autonomous Palestinian Territories

- Developed more than two projects using Flutter for Android and iOS.
- Integrated an app using APIs with an architectural design approach.
- Skilled in state management, real-time data handling, and third-party service integration (e.g., Firebase, Google Maps).

Freelance Academy

Gaza Sky Geeks [10/09/2022 – 20/01/2023]

City: Gaza | **Country:** Autonomous Palestinian Territories

- Gained practical knowledge of freelancing platforms (e.g., Upwork, Fiverr) and effectively utilized social media for professional networking and marketing.
- Learned to craft compelling proposals, tailored to client needs, resulting in increased project acceptance rates.

- Developed skills in job sourcing and client communication, ensuring alignment with project goals and deadlines.
- Acquired expertise in managing freelance workflows, including time management, negotiations, and delivering quality results under pressure.

Flutter Developer

Future Makers Fourm [20/06/2022 – 20/10/2022]

City: Gaza | Country: Autonomous Palestinian Territories

- Trained and mentored 20 students in developing Android and iOS apps using Flutter, focusing on project-based learning to enhance practical skills.
- Guided students in mastering state management and API integration, leading to the successful delivery of a fully functional final project.
- Fostered a collaborative environment to encourage creativity, teamwork, and problem-solving, preparing students for the job market with best practices in development and deployment.

Flutter Developer

Vision Plus Company [15/11/2021 – 10/02/2022]

City: Gaza | Country: Autonomous Palestinian Territories

- Developed multiple cross-platform mobile apps for Android and iOS using Flutter and other programming languages, ensuring seamless performance across devices.
- Implemented efficient state management techniques (e.g., Provider, Bloc) to maintain responsive and scalable applications.
- Integrated Firebase services (Authentication, Firestore, Realtime Database, Push Notifications) to enhance app functionality and scalability.
- Gained expertise in API integration, UI/UX design, and optimizing app performance for a smooth user experience.

Flutter Developer

WebCom Technology Company [15/07/2021 – 15/09/2021]

City: Gaza | Country: Autonomous Palestinian Territories

- Collaborated with a team to develop cross-platform mobile apps for Android and iOS, ensuring seamless functionality and design consistency.
- Gained hands-on experience with GitHub for version control, including code management, branching, and collaborative workflows.

Android Developer

Community Service and Continuing Education Deanship [10/01/2020 – 15/04/2020]

City: Gaza | Country: Autonomous Palestinian Territories

- Developed multiple mobile apps for Android using Java, ensuring high performance and user-friendly interfaces.
- Published and managed apps on the Google Play Store, including handling app updates, compliance with store policies, and optimizing app visibility.
- Gained expertise in Android SDK, API integration, and UI/UX design, delivering apps that meet user needs and expectations.
